

Rules and Regulations for Fishing Stabbursdalen Grunneierforening

Fishing season

- Fishing is permitted in the Stabburselva River from 1th of June 00:00 am to the 31th of August 12:00 pm.
- Sea char is protected. All sea char are to be handled as carefully as possible and thrown back immediately.
- In the period of august to the 31th of august all salmon longer than 70 centimeter must be released

Fishing zones

Stabburselva is divided into 4 fishing zones where the Stabbursdalen grunneierforening has an agreement with Fefo. It is marked with signs where one zone ends and another begins. Please note that areas from Lombola down to the estuary require different fishing licenses. Stabbursdalen elveeierlag, <https://stabburslaks.lakseelv.no/> sells its own maps, in addition to some private ones.

The fishing zones are also marked on the map at the ticket sales point. On the fishing card, the card seller will indicate which zone you have the right to fish in. People who have bought a season card can fish in the entire river regardless of the zoning. The zoning can also be found on the websites of the respective associations.

Zone 1: From the outlet of the Stabburselva River up to the Rávraorri pool

- A maximum of 14 single-day permits is issued each day, valid from 18:00 to 18:00.
- A drawing is held daily at 15:30 at the Stabbursnes Naturhus and Museum.

Persons wishing to be included in the drawing must be present at the drawing.

Zone 2: From the Rávraorri pool up to the Fossekulpen/Goržžisavvon pool

Day permits are valid from 18:00 to 18:00. Week permits are not available for this zone.

Zone 3: The Fossekulpen/Goržžisavvon pool

- A maximum of 3 single-day permits is issued each day, valid from 18:00 to 18:00.
- A drawing is held daily at 15:00 at the Stabbursnes Naturhus and Museum.
- Persons wishing to be included in the drawing must be present at the drawing.
- Purchasers of a Zone 3 permit may also fish in Zone 2 and in Zone 4.

Zone 4: Stabbursfossen/Rávtošgorži to the outlet of Njáhkájohka

- Up to 15 24-hour cards are sold, which are valid in the period between 6 p.m.– 18.00. Weekly passes can be purchased for this zone. If you have ordered a fishing license, these must be collected by 3 p.m.

Protected areas and private places

- Fishing is not permitted at or near the fish ladder at the Stabbursfossen falls. This prohibition applies on both sides of the river to a distance of 100 metres above and 100 metres below the fish ladder.
- Fishing is not permitted from the last waterfall in zone 4, and 100 metres upstream of the second fish ladder/flumes.
- Fishing is not permitted at the confluence with the Dilljohka, from 100 metres upstream to 250 metres downstream.
- Fishing is prohibited from Njáhkájohka outlet to Njáhkágorzi.
- Fishing from any part of any road or bridge is prohibited.
- It is forbidden to fish 100 meters upstreams and 100 meter downstreams of the pink salmon trap
- Your fishing license is only valid on the parts of the river which is under the control of Stabbursdalen Grunneierforening.

Quotas

- Residential address Porsanger has a seasonal quota of a maximum of 4 salmon over 70 cm. Annual quota 8 salmon in total
- Residential address Finnmark has a seasonal quota of a maximum of 2 salmon over 70 cm. Annual quota of 6 salmon in total.
- Others have a seasonal quota of a maximum of 1 salmon over 70 cm. Annual quota of 6 salmon in total

- Quota changes can come at short notice

Tackle regulations

- Fishing is only permitted using rods and hand lines. Permissible tackle is restricted to the following: flies, worms without sinkers, lures, spinners and wobblers. Only one hook (or treble) is permitted for fly fishing or fishing with worms, and the only casting weight allowed is a float or a fly line.
- From 1. August, maximum lures, spinners and wobblers size is 12 grams.
- Fishing with shrimp is not allowed.
- It is illegal to fish in such a way that fish are easily foul hooked.
- Anglers must at all times stay with equipment that is set up and in play.

Fish to be thrown back

- Kelt, salmon under 35 cm, sea trout under 30 cm are to be handled carefully and thrown back immediately.

Catch report

Catches must be reported continuously at <http://stabburselva.info>. for cards purchased on the land leased by the Stabbursdalen grunneierforening. . Fisherman's ID for catch reporting can be found on the fishing card. Daily and weekly license fishermen can fill in the catch statement on their fishing license and hand it in to the card issuer after fishing. Fishermen with season tickets can register their catch on a separate form at the Naturhuset.

For repayment of the deposit, the card must be delivered to Stabburnes Nature House and Museum by 20 September. Fishing licenses sold on the Eleveierlaget grounds report to <https://stabburslaks.lakseelv.no/> Fishermen are encouraged to deliver shell samples to Stabburnes nature house and museum. Those who participate take part in a prize draw after the end of the season

NB! Fishermen with season tickets bought by the Stabbursdalen grunneierforening who do not keep a catch report lose the right to get a season ticket issued for the following fishing season.

Other rules

- Anglers must follow all instructions from the river keepers and produce all permits or ID on request. Permits may not be borrowed, sold or swapped with others.
- Violation of fishing rules may lead to fees and exclusion from fishing. Reporting to police will be considered.
- Anglers must not disturb each other while fishing. New arrivals must commence fishing upstream from those who are already fishing.
- Campers are requested to take care to avoid causing any hindrance to other anglers.
- Please note that private property may be closed to fishing.
- Please respect the rights of property owners. Do not climb over fences or trespass on cultivated land.
- Please show respect for nature. It is illegal to cut down wood or strip bark from trees. Campfires are permitted only at existing fireplaces.
- Take your refuse with you when you leave and dispose of it in public bins.
- Be considerate of others and show common courtesy.
- The owner of the fishing rights or the county governor may declare all or parts of a watercourse off limits to fishing if insufficient stocks of anadromous fish are running up the watercourse or if other circumstances make such action necessary.

Disinfection of fishing equipment

- All fishing tackle and other potentially contaminated articles that have been used outside Finnmark County must be disinfected.
- A disinfection certificate for fishing tackle and equipment must be shown in order to purchase a fishing permit.
- Anglers must carry their disinfection certificate at all times while fishing and show it to the river keeper or other authorised official together with their fishing permit.
- Fishing tackle may be disinfected at the Stabburnes Naturhus and Museum.
